

# Modern classroom management

A software solution that simplifies IT support and puts the power back in teachers' hands

## LanSchool from Lenovo

As today's K-12 teachers are addressing challenges with technology, they are relying on equally time-strapped IT teams who are busy focusing on other projects. Meanwhile, students are volleying from one platform to another — distracted, confused, and getting lost in complex digital experiences.

### CHALLENGES

- **Enable** synchronous learning experiences
- **Protect** students while keeping them focused and engaged
- **Ensure** compatibility to meet the needs of any technical environment

### LENOVO SOLUTIONS

- **LanSchool Classic.**  
Locally hosted
- **LanSchool Air.**  
Cloud-based
- **Lenovo devices running Windows 10 Pro and powered by the Intel vPro® platform** with business-class performance for the classroom, paired with LanSchool and end-to-end support

### BENEFITS

- **Easy installation** with onboarding assistance
- **Simple integration,** automatic updates
- **Compatible** across all operating systems and mixed-device environments

### CASE IN POINT

“LanSchool allows teachers to manage their classroom more effectively. It's making my life better, making our teachers' lives better, and helping students learn.”

Jessica Whistler, senior IT support specialist, Logansport Community School Corporation
